Signet wafer clip

**NOVELLUS - PVD PART
Models 3180 - 3190 - 3290**

Signet Wafer Clips

Signet Part Number 33-2057

To insure cleanliness 20 wafer clips are sealed in an air tight bag as shown on the right. This bag is placed in the pill box on the left which prevents them from being bent or distorted during shipping or storage.

Signet's wafer clips have been proven in many FABS with total acceptance. They are available from stock in packages of 20, Signet part # 33-2057. If you would like to qualify them in your FAB, we would be pleased to ship you a sample package of clips to evaluate.
