Riber R6000

Shutter Blade Bellows

Signet Part Number 55-0188

The Signet enhanced R6000 shutter blade bellows are designed for long life. For added strength and reliability, Signet uses a robotically controlled "edge welding" technique to ensure a strong, reliable interface between the bellows convolutions and the terminal flanges.

Signet Products Inc. supplies parts that replace OEM consumable parts. Whenever possible, they are engineered to improve performance and or extend service life. A "Ref." following an OEM part number indicates our part is an improved design related to this OEM part.

Ref. = Design Alteration of OEM Part
